

Urbanplanen, Copenhagen

Madelaine Shapland

Week 1

We spent monday being introduced to the different topics of the course - the 3 E's. We had guest lectures and got to know the other people on the course.

On tuesday we visited Urbanplanen with our groups, were introduced to the area and had a look around.

Friday, 4 February 2011

Our initial impression was very positive

We met
Partnerskabat, and
were told a little
about the area and
its inhabitants

We were given a
room on site to
work in

Wednesday 12th

We had groupwork and a guest lecture on Arduino back at The School of Architecture, with feedback sessions from the tutors

Thursday 13th

We took a tour of
the site with
architect Jens
Christian Pasgaard

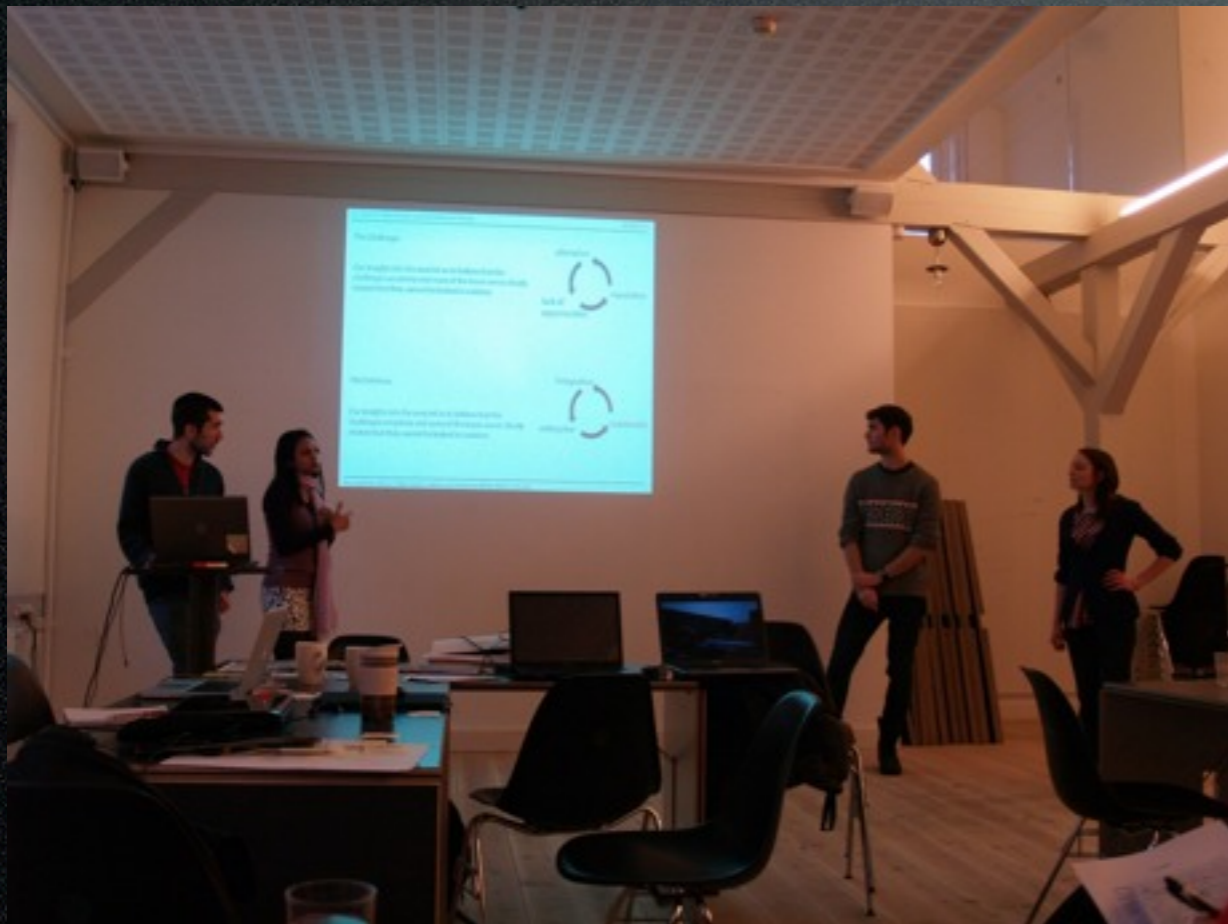

We met with Mikkel to
find out some
statistics about the
site and residents

Afterwards, we went
out to conduct some
interviews

Week 2

Monday - we did presentations of our findings from the first week

Tuesday 18th

With more onsite research on Tuesday, we had a meeting with both Copenhagen groups giving feedback on each others ideas.

Friday 21st

We had a session on giving presentations, and presented our ideas in front of the group. We received advice on how we could improve our body language and presentation skills

Week 3

Monday and Tuesday were spent doing group work in Copenhagen and Malmo

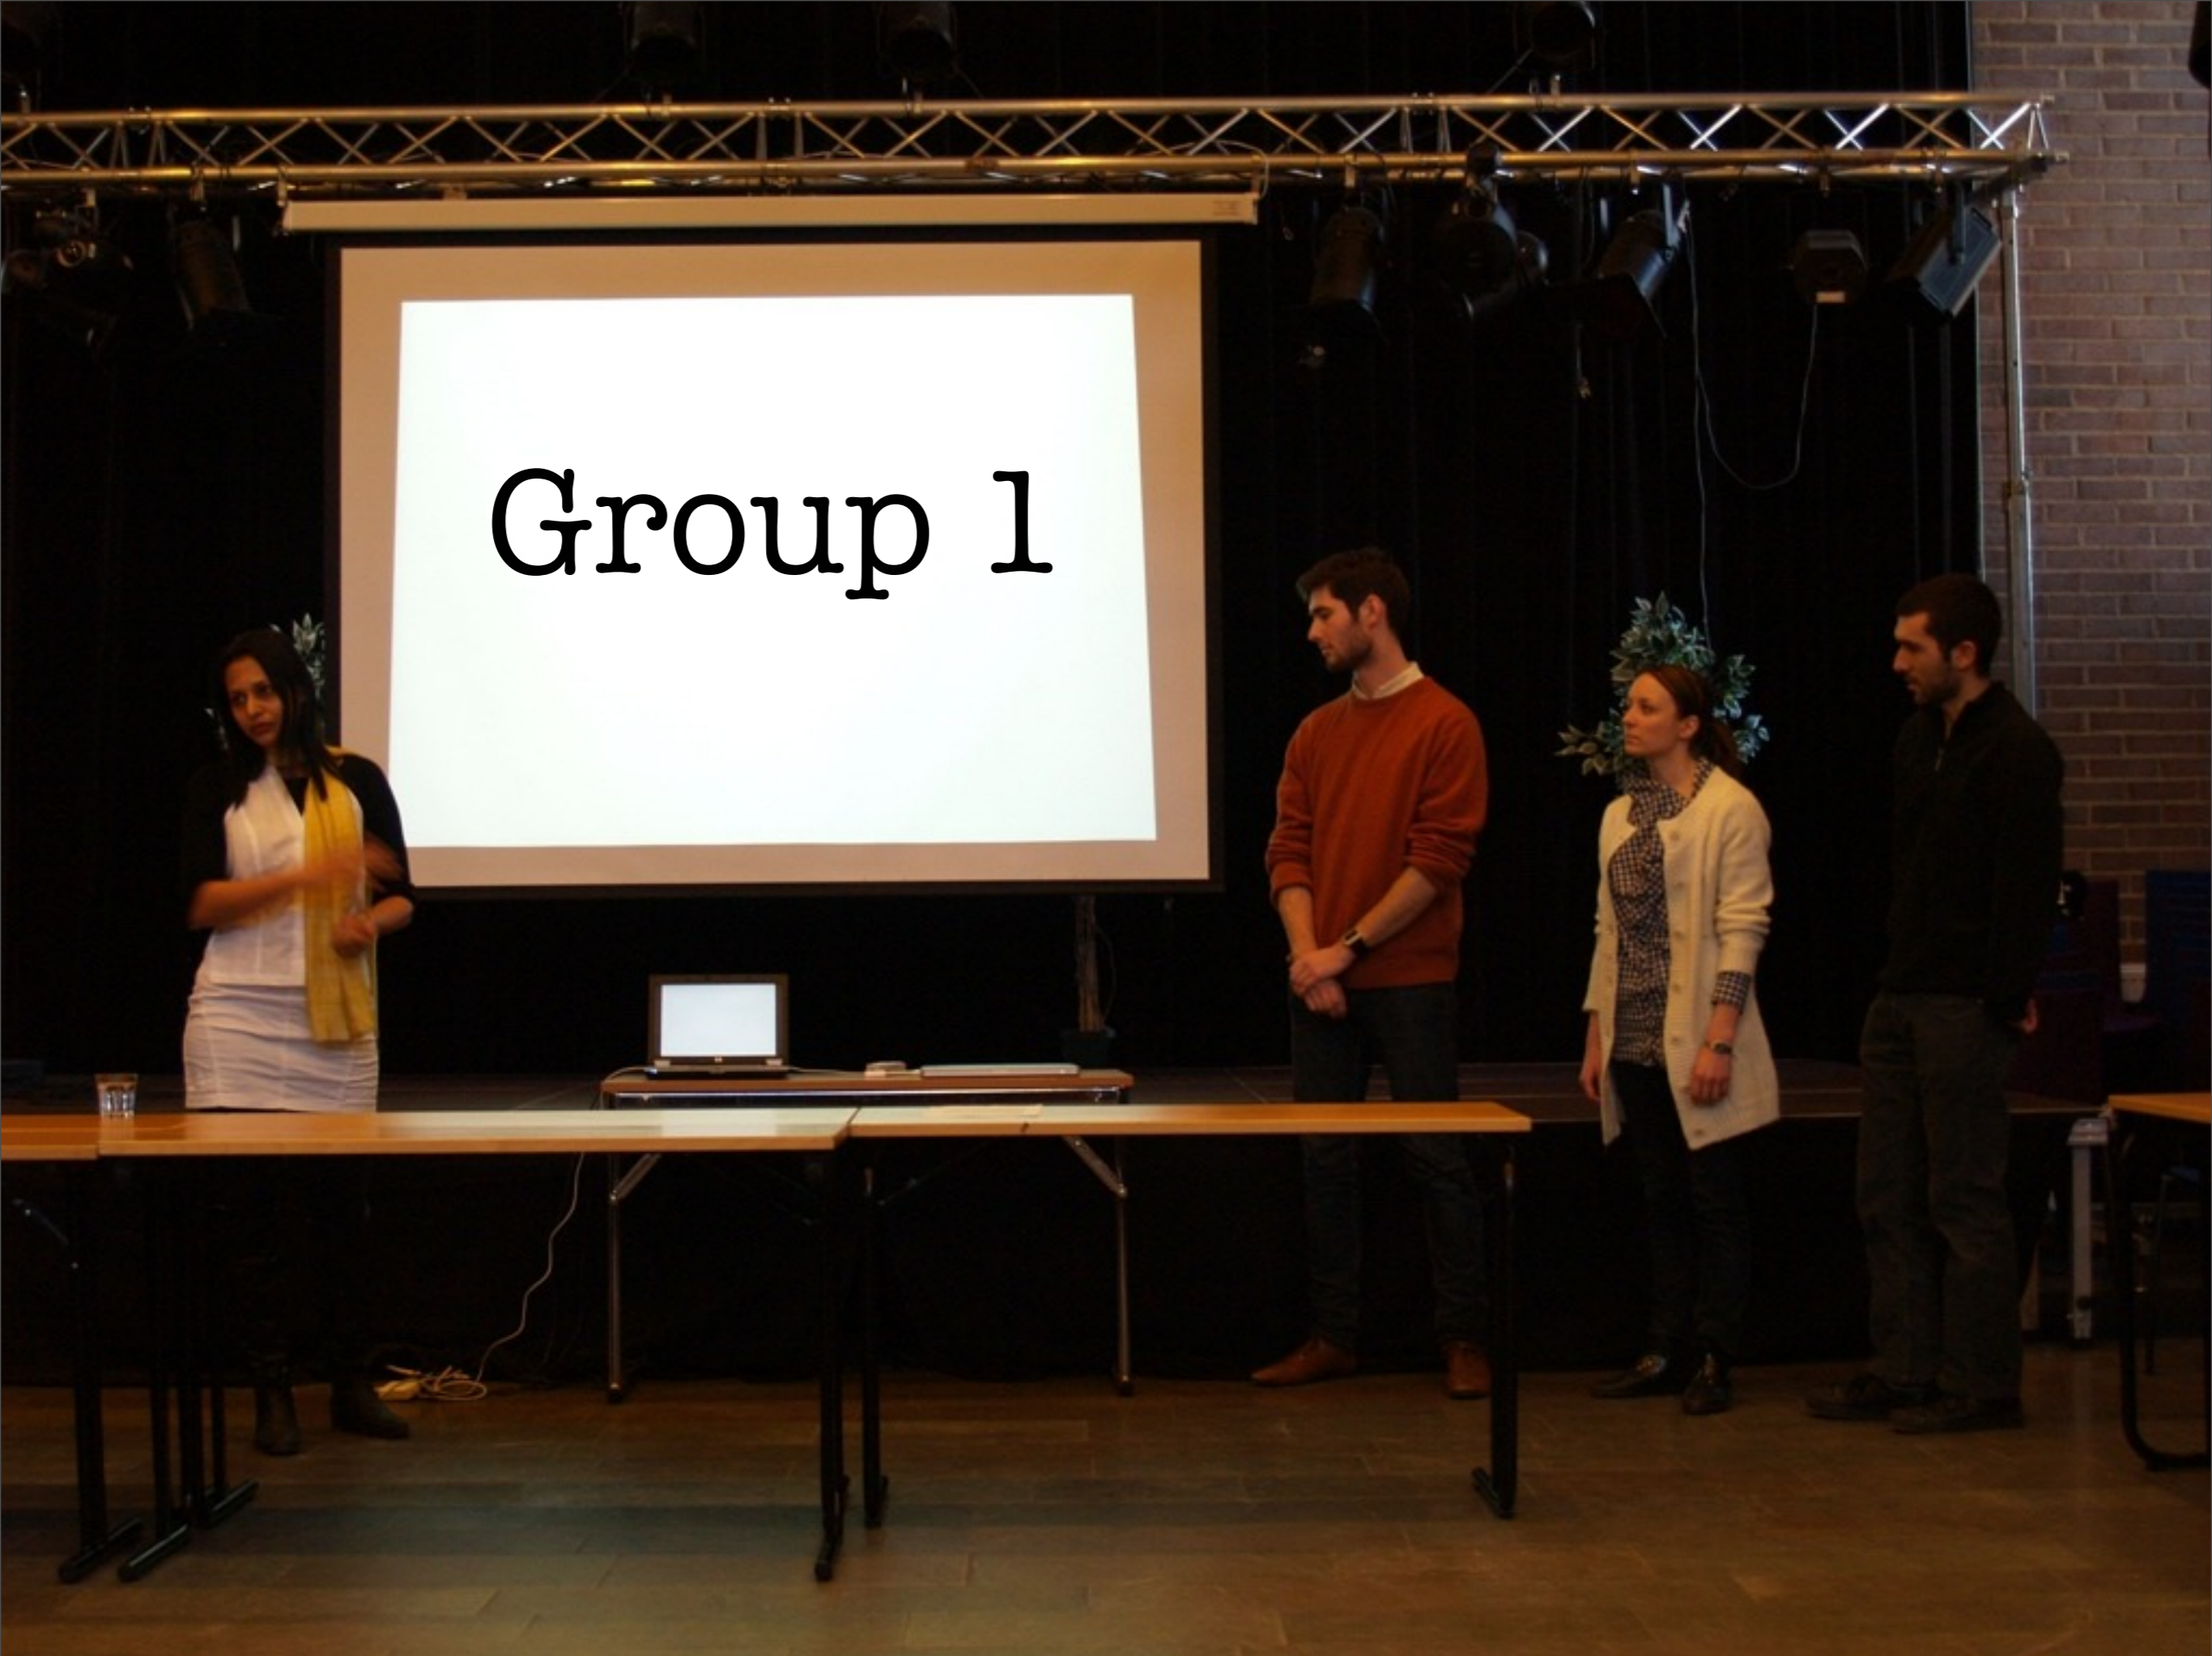

Thursday in Malmo

At 8am, Copenhagen residents caught a coach across the bridge to Rosengård, Malmo.
We were treated to a beautiful sunrise and arrived right on time.

Group 1

Group 2

Possibilities

We ate lunch in Malmo
and got the coach back
to Copenhagen

Urbanplanen

Group 3

Activity Place: Urbanplanen

This is my only photo of group 3 because I was part of that group

Group 4

Friday feedback session

We rated our
experience of the
whole course and the
tutors

And we filled out
feedback sheets, and
then discussed ideas
as a whole group
